

THE HALIBURTON COUNTY ECHO

Vol. 94, No. 48

Wednesday, July 27, 1977

"The voice of the Highlands" since 1882

20 cents

Mrs. Caroline Pierce, a resident of Hyland Crest, became 105 years old last week. In honor of her birthday a party was held at a relatives home in

Lochlin. Mrs. Pierce enjoys keeping up with the news of the world.

Haliburton County's oldest resident

Caroline (Carrie) Pierce may be the second oldest person in Canada and she seems to like the idea. She even suggests that perhaps someday she will be first.

Carrie celebrated her 105th birthday last Thursday and was honored with a garden party Sunday afternoon at the home of her grand niece and nephew, Mr. & Mrs. Bryan Neville, of Lochlin.

Mrs. Pierce was born July 21, in Sussex, England, moved to Sudbury, Ontario in 1907, to Markham in 1947 and became a resident of Haliburton County last year. She is presently a resident of Hyland Crest Senior Citizen Home in Minden.

When asked what she attributed to living to the age of 105, Mrs. Pierce seemed to think there was no particular reason other than taking life easy.

When it was suggested to her that she may be the second oldest person in Canada, Mrs. Pierce was surprised. She questioned how close she was to the oldest person. The oldest known living person in Canada is David Trumble of Napanee, who will turn 110 in December of this year. Mr. Trumble was born in Haliburton.

Mrs. Pierce said that long life doesn't necessarily run in her family, at least not as long a life as she has

lived. She pointed out that she was from a family of nine children and the oldest any of the others lived was 88. She doesn't remember anyone else in her family living any longer than that.

Mrs. Pierce's birthday, as you can well imagine, during the last few years, have become occasions.

Her 100th birthday, which she celebrated in Markham, just so happened to coincide with the 100th birthday of that municipality.

This meant that she had the honor of going to the Markham town hall and officially cutting the birthday cake for the centennial celebration. She was given a silver plate to commemorate the occasion.

For her 101st birthday, Mrs. Pierce got behind the controls of an airplane. The airplane trip was arranged by Herbert Couperthwaite, a Toronto cab driver, who is a pilot.

Mrs. Pierce admitted that she has seen a great deal in her 105 years, including the development of the automobile and airplane. She remembers seeing an airplane fly for the first time over a lake in England.

She says she has no hobbies but enjoys watching television and listening to the radio because as she says she "likes to know everything that is going on."

Municipal share up

Dysart et al taxpayers will find 11% increase

Dysart et al taxpayers will find an increase of about 11 per cent on their tax bills this year.

Dysart council has approved the 1977 mill rates of 256.13 residential and 291.89 commercial. This means a 25.90 increase in the residential rate and 30.44 commercial.

In a release from Reeve, Murray Fearrey, it points out that the 1977 education levy is the same, while the county

taxation has risen two per cent and the municipal nine per cent.

In discussing the matter with Reeve Fearrey, it was noted that the municipal portion of taxation for the past few years has more or less remained stable.

Reeve Fearrey pointed out that there were projects in 1977 that were nearing completion and had to be budgeted for. He sighted major increases in general

government up \$42,000 due to salary increases, increased legal expenditure due to Ontario Municipal Board hearings on apportionments and completion of the municipal building and fire hall.

Other areas of increased expenditure were roads with the budget up \$59,000 and planning and development which was up \$17,000 to pay for the new zoning bylaw.

Although the increase on municipal expenditure was

high, Reeve Fearrey indicated that some of the increases like the zoning were

not of a permanent nature so the taxpayers could look for some stability in the municipal portion of their tax bills.

Eakins upset by Miami advertising

John Eakins, MPP for Victoria-Haliburton, is hop-

ping mad about the way the Miami Beach Tourist Development Authority describes a holiday in Ontario, according to a story in the Toronto Star.

The Star story, which appeared on the front page, stated, "Mosquitoes the size of dive bombers. Hot and cold running poison ivy."

"That is how the Miami Beach Tourist Development Authority describes a holiday in Ontario."

Mr. Eakins, the Liberal Tourism critic complained that the Miami organization's newspaper advertisement was in poor taste.

According to The Star story, Ontario tourism ministry officials didn't agree. "A spokesman said that the ad, which also suggested Ontario resorts featured 'wall-towall people,' was a clever, tongue-in-cheek effort to encourage tourists to come to Florida."

The person pointed out to The Star that Ontario advertises in the United States all the time but admitted, "We would not use the same creative approach."

Mr. John Eakins sent the following open letter to The Honourable Claude Bennett, Minister of Industry and Tourism:

I would like to take this opportunity to inform you of an article that appeared in the Toronto Daily Star on Saturday, July 16, 1977. It was an advertisement sponsored by the Miami Beach Tourist Development Authority, in which the pleasures of a Miami Beach holiday were, to say the least, unfairly com-

Antique cars travel the area as part of tour

A number of antique cars toured through the Haliburton Highlands Monday, causing a few eyes to turn twice.

The antique cars and their owners are from the Classic and Antique Car Club of Canada and were motoring through the Highlands as part of a tour which originates every day in Orillia.

There were a total of 51 cars on the tour, which Mary Grant of Ottawa said starts every day in Orillia. The idea is that the cars tour a different area every day.

Mrs. Grant pointed out that the Haliburton trip involved driving to the Leslie Frost Centre in Dorset where the car owners and passengers had a picnic lunch and explored a nature trail. They then proceeded down Highway 35 to Minden, but many took a side trip through the Maple Lake, West Guilford and Haliburton area. In Minden they had supper at the Fireside.

Mrs. Grant and her husband Peter were among the many participants in the tour driving their 1938 Alvis. The Grants bought the rare automobile in England, in 1974. It took Mr. Grant 1,000 hours of work to restore the

car. He pointed out that only

203 were built over a three year period. Mrs. Grant

added that the Alvis' all have aluminum bodies and they all

were hand made so no two were alike.

Mary and Peter Grant, of Ottawa, stand beside their 1938 Alvis, which is one of 51 cars participating in an antique car rally at Geneva Park in the Orillia area. The cars toured through Haliburton County on Monday and

caused quite a stir among the people on the streets. The club was stopping at The Fireside in Minden for supper.

Country Good Times an annual success

The Country Good Times, in Wilberforce, proved to be as successful this year despite the fact that Monmouth is presently without an arena.

A number of events, such as the beer garden and food areas were held in tents.

Don Herbert, one of the organizers of the Good Times, said that they were quite pleased with the

success of this year's event and noted that there were a number of new items which seemed to please the crowd including an exhibition centre in the curling club.

Winner of the amateur contest was Lennie McGuire, a songstress from Haliburton.

In the horse draw the top prize went to Mac McGilvery in the heavy class. Clifford

Manion was second and Dwight Corbett third.

In the light class Murray Cowen took top spot, followed by Alex Little in second and Udo Hogeschur in third.

The prize for the best float in the parade went to the Monmouth Senior Citizens.

Derek Smith's Wilberforce Jail entry won the best comedy float in the parade award.

Best antique car award went to Norman Grant for his 1925 Willys. The best decorated car prize was taken by the Bank of Nova Scotia.

The best decorated boys bike award went to Bruce Sargeant and the best decorated girls bike award went to Jennifer Klapow.

The best clown in the parade award was given to Bill Irwin.

Gardens at Allsaw

by Julia Sikorski

Imagine a late summer evening in August. The sweet smell of pale yellow cobs of corn penetrates the air. The cobs are fresh, tender, and so good because they were just picked early that morning.

Picture a garden filled with bright green peas, cool crisp green beans or sunny red tomatoes tangy to taste. Beets, radishes, lettuce hold their tender leaves to catch the summer sun. All wave in the soft Haliburton breeze.

These are the fruits of our labour, the gardener's reward. But indeed there must be labour. There is no easy way to produce a prize garden.

The gardens at Allsaw start in the camp's dining hall and in the nearby horse stables and egg farm. Camp Allsaw's slop bucket shows us all how we can recycle in our own homes. The camp has three kinds of garbage cans, organic, paper and cans. After each meal staff and campers take turns scraping the precious organic leftovers into the appropriate bin. Later this treasure is carted off to the composting box where it is mixed with a combination of horse and chicken manures. Here the soil making process takes place.

It takes time for the appropriate bacteria and fungi to accumulate enough to initiate organic breakdown. When the assortment of microbes (nutrifiers, ecoli, aspergillus, etc.) feed on the compost energy is used. If break down were occurring in the field, crops may suffer from competition with the microbes for nutrients. However, nutrients are released again as the microbes die at the completion of composting. Thus, the rich soil is gradually being formed in the composting box and is excellent for crops upon completion of the composting cycle.

The process is well under way when the white soil worms make their appearance. These further the decomposition of the organic matter.

At about the three month mark red wigglers are introduced to complete the conversion cycle. Through eating and excreting, the worms produce a rich black loam which is slightly alkaline in nature.

The camp composting method thus provides a rich growing medium for an area where natural soil fertility is low. The organic medium is so balanced and fertile that there is no need for chemical fertilizers.

The concept of companion gardening is taught at Camp Allsaw. Certain plants remove more of one of the three basic elements (Nitrogen, Phosphorous, potassium), than do others. By alternating appropriate plants, the soil maintains a balance of all elements and there is maximum efficient usage of the soil. Also involved in this practice of companion gardening, is the method of planting crops side by side which will mutually discourage pests upon each other.

Some crops will always be lost to wild animals and insects but Camp Allsaw teaches the use of practices which cut down on losses. Through genetic resistance, planing more than one type of crops per field companion planting and rotation, there is a minimum of damage. The Allsaw crop is always of the highest quality and is obtained without the use of chemicals and fertilizers.

Allsaw radishes are so big they look like beets, but they are still tender and good to eat.

All summer, campers who chose to come to conservation work hard. Sometimes they plant, learning proper methods and distances. Sometimes they hoe, leaving the weeds turned under to return goodness to the soil. Sometimes they pick leaving tops and leaves that are not used, in the field to return nutrients to the soil and sometimes they work on a project of their choice. As any one will tell you, its hard work but fun and its all worth it when the tasty fruits of this labour reach the Allsaw table.

Report from Queen's Park

BY MPP JOHN EAKINS

The Ontario Institute of Agrologists, whose membership includes farmers, soil scientists and other agriculture professionals, has urged the provincial government to impose an immediate freeze on the conversion of farmland to non-agricultural uses, and to strengthen its proposed guidelines for food-producing land. In a statement to the Minister of Agriculture, the Institute maintains that the government's recent policy paper on foodland guidelines allows municipalities too much leeway in developing land-use plans.

According to the Ontario Federation of Agriculture, the 26 acre per hour decline in improved land during 1966-1971 was reversed during 1971-1976. Meanwhile the decline in unimproved land continued. The overall story is that in 1976 there was less land in control of food producers, but that more of the land on farms was improved land, compared with 1971.

From available statistics, it is difficult to ascertain the exact situation. So much depends upon the quality of the land in question, which is not specified. Also, the official definition of a farm has been changed. Prior to 1971 a farm comprised any unit of at least one acre, producing for sale agricultural products worth at least \$50. A farm is now defined as a unit of one acre or more producing \$1,200 in agricultural products.

The "Food for the Cities Conference" was held in Toronto on March 30th and March 31st, 1977.

Liberal Leader Stuart Smith said that "In the short run we could let the market prevail. More land would be taken out of production, prices would rise, and those farmers remaining on the land would have a very good income."

"But we must look to the future. There is no more land being made. We must husband and protect this product. This requires a distortion of the market today, but it will pay dividends in the future. Subtle changes in climate, some of which are now being predicted by experts in that field, could render our current land resources much less productive. Changes in the price of fertilizer may affect the optimum productivity of the land. There may well be a time when food exports will become a vital part of the balance of payments of this province. Although it is not yet the case, it seems clear to me that by present world trends our food resources could become somewhat similar to the oil resources now held by the OPEC countries. As we incur ever increasing deficits to pay for energy resources, we may be able to sustain our economy by exporting natural resources."

"The energy crisis is not temporary and the price of energy will continue to rise. It may soon become economically feasible to raise energy crops on agricultural land to produce methanol."

"But if we distort the market, who shall pay? In our view it should not be the farmer, already struggling to make a decent living - that would be patently unfair. We all must find fair ways to share this cost. We must pay at the supermarket and through taxes. We must make wise use of marketing boards and tariffs and must recognize that part of the price must be paid through higher food prices. If we want to preserve agricultural land there must be some increases in the price of food. Farmers must have an incentive to earn a decent living but it is not enough to say preserve the farmer and he will preserve the land."

"In some cases the growth of cities has put

tremendous pressure on our best agricultural land in terms of soil capability and heat units. This is natural because many settlements in Ontario such as London, Chatham and many others grew up as market towns.

From the Chamber

BY BOB STINSON

The Country Good Times weekend, at Wilberforce, is now history for another year, and once again has been an overwhelming success. The high degree of participation by the people in Monmouth is a credit to the community and always insures the success of these events. One of the secrets is good long range planning and with that in mind, Keith Tallman tells us that plans are already underway for their fall Autumnfest which was launched for the first time last year.

Minden Carnival is now already underway and will be topped off this year with the annual Canadian Blues & Jazz Festival on Saturday night. Only once a year is talent of such a high calibre available to be seen locally and none of us can afford to miss this musical spectacular. Minden Rotary Club have lost money on this presentation each year but continues to stage the event for the benefit of those who have attended in the past and have been extremely vocal in their support of it. If you have not yet enjoyed the experience of a blues and jazz festival in Minden, you really owe it to yourself to get out this year and try it.

We received a note from Canada Manpower this week to remind us that the deadline for Fall Programmes under Canada Works is August 26th. Any organizations contemplating projects that can be funded through this program are urged to complete their applications by that time. Please call our Haliburton Outreach Office at 457-1316 for further information on the Canada Works programme.

Norm and Marion Cliff recently sold the Flour Shop Bakery in Haliburton to John Brophy. We would like to wish Norm and Marion a happy retirement and welcome John Brophy into our business community. John has been holidaying in our area for some time and bought a permanent residence last year. Larry Medley is now joining John down by Rotary Beach with a Pizza Stop next door to the Bakery. We wish much success to both of them.

Keith and Eva Piror have been extremely busy getting ready for this weeks opening of their new store in the former quarters of the Haliburton Red & White. Plans are to have the new store open this week, but Keith did say they were running a little behind schedule. We sincerely wish Keith and Eva continued success in their new quarters.

Things are getting spruced up all over Haliburton County. With the information centre almost like new, we decided to send the Young Canada Works crew up to the caboose at Haliburton and give it a face lifting. While the caboose gets a new coat of paint, the Experience '77 Program workers, from Natural Resources, are busy landscaping the surrounding area, and the whole place will certainly be far more attractive shortly. The old curling rink is rapidly coming down at the Haliburton Centre and we look forward to seeing a shiny new facility in that location.

In Wilberforce the old arena is now completely

Haliburton Legion Carnival

Bob and Stephanie Wells, ticket in the draw for the camper at the Annual Legion Carnival. Bob Bannon, carnival

Jennifer Brydon, 4, daughter of Mr. & Mrs. McKay Brydon of Haliburton, certainly got a kick out of the merry-go-round at the Haliburton Legion Carnival last week. Jennifer was among the many youngsters to enjoy the rides and games at this year's carnival.

chairman, told The Echo that the carnival was as big a success as ever.

Mr. Bannon pointed out that all 2,000 tickets were sold in the draw for the camper truck and the money is accounted for.

Top salesman was Keith Brannigan who was directly responsible for the sale of 472 tickets or \$4,720 worth. Indirectly he was responsible for the sale of \$6,800 worth of tickets.

The number two ticket seller, and number one as far as the Wells Family is concerned, was Harry Cowen who sold 385 tickets for \$3,850, directly and \$6,500 indirectly.

He sold the winning ticket to the Wells.

The winning ticket was drawn by Laurie Brown.

Mr. Bannon offered his thanks to the ticket sellers, noting that they were greatly responsible for the success of the carnival draw.

Another area involving the ticket sales which requires a great deal of work, is the addressing of thank-yous and recording the ticket sales.

For each ticket sold the address must be noted three times. Mrs. Bob Bannon took top spot in this, writing 4,407 addresses and Mr. Cowen addressed 1,998.

Mr. Bannon thanked the municipality of Dysart et al for allowing the camper to be parked on the street.

Mr. Bannon offered special thanks to Doug Armstrong who started as chairman of the carnival but was sidelined by illness and to Dysart Reeve, Murray Fearrey and Deputy Reeve, Harold Bannon.

He pointed out that the Haliburton Legion is a county wide organization and that they hope the draws being held by the Haliburton Rotary Club, the Minden Rotary Club and the Haliburton Kinsmen Club are as successful as their draw.

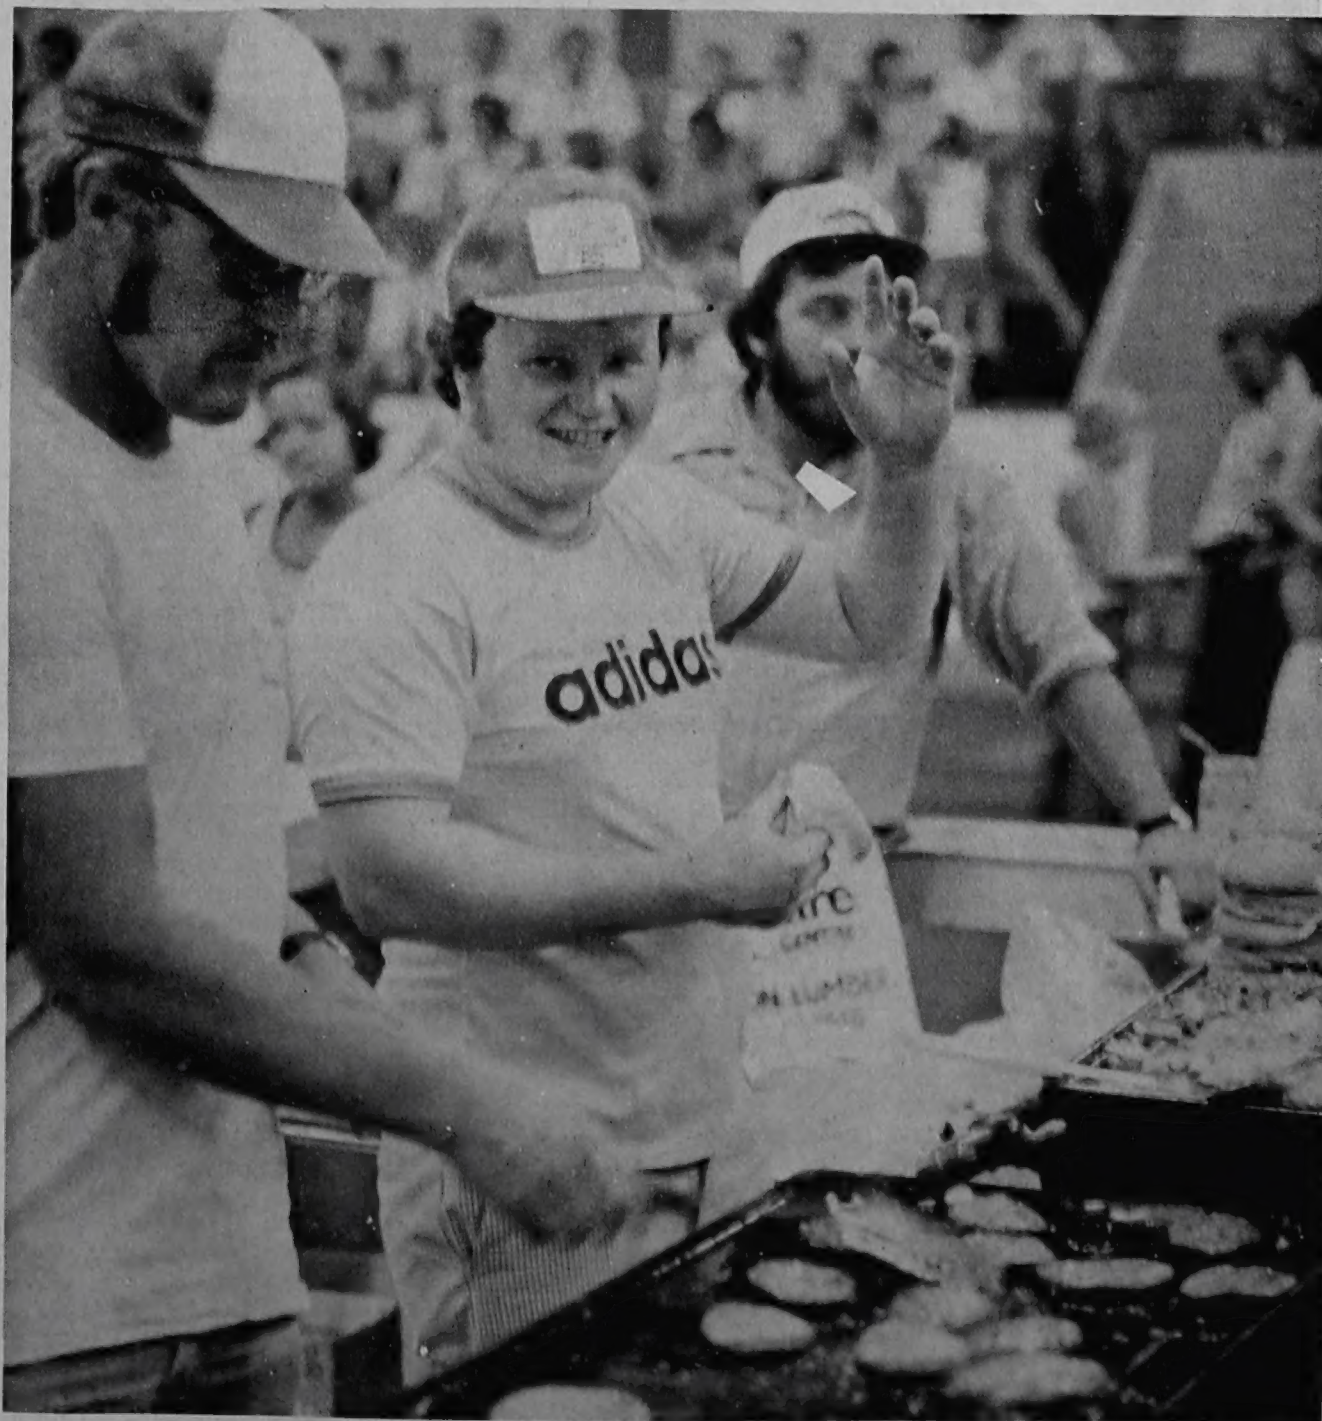

Everyone seemed to enjoy the annual Haliburton Legion Carnival held last Wednesday. The games and other events proved to be popular attractions for the

many people attending the event. The carnival included many interesting things to do and see, including a beer garden and a parade.

The Haliburton Legion Parade was one of the main attractions of this year's Haliburton Legion Carnival. The parade included many interesting marching units,

bands and baton twirlers as well as the usual floats and commercial entries.

One thing people really like when they are out at a carnival is getting something to eat. The people who attended the Haliburton Legion Carnival were no

different, buying a number of hamburgers and hot dogs as well as many other items.

The Haliburton County baton twirlers were part of the annual Haliburton Legion Parade. The parade was one of the highlights of the Haliburton Legion Carnival

which was held last Wednesday. The annual event drew a large number of people despite 90 degree heat.

Echo editorials

Late start for sewer project

Keep those septic systems running for a little while longer, the sewer project is getting off to a late start.

The Echo learned last week that the sewer project wouldn't be getting off the ground until August or September which means with some bad weather it may show little progress until late next spring.

After watching a good summer go by, we wonder just why the wheels would be turning so slowly on the project. It would seem that approvals were in for some time on allowing the village to get the sewers.

We understand that it has been a long, hard struggle to bring the second phase of the sewer project to Haliburton Village. We know of the many complicated dealings that have to take place. But, that was all over sometime ago and most people expected the actual building of the sewers to start a little earlier.

Times are changing

Times have changed rapidly for youth over the past few years.

Seldom did anyone under 18-years-old have the opportunity to travel, unless it was with their parents.

Now, there are school trips, club trips, student exchanges and Scout and Guide trips.

Two Haliburton girls, Sharon Williams and Kelly Roberts, both had the opportunity to go to Cape Breton Island as part of an International Girl Guide Jamboree.

The two are part of a group of five girls from Woodland Division of Girl Guides who were selected for the trip.

These two girls earned the right to the trip and because they had the opportunity, have in all likelihood broadened their knowledge of Canada and the rest of the world.

Hopefully many other youngsters in various organizations will have the opportunity for similar trips.

Local lake levels are going up

We keep hearing that lake levels in this area are going up because of the rain but you will have to look hard to find a lakeshore resident or boat owner who is in agreement.

The lake levels in Haliburton County Lakes are controlled by those who operate the Trent Canal System. To keep the canal system operating properly the lake levels here must fluctuate. But, how much can the local residents take?

Haliburton, although probably not as big a tourist attraction as those in the Trent Canal, is a tourist attraction anyway. The economy of Haliburton County depends a great deal on the people who travel to the area to enjoy the lakes but if a person is risking damaging his \$2,000 outboard motor everytime the boat is in the water, it is likely he will look for greener pastures.

Some better planning and perhaps a better reservoir system is needed to control the levels of the Trent Canal and therefore control the levels of the lakes in Haliburton County.

We care what you think

The Haliburton County Echo needs your help. We want to provide our readers with every opportunity to express themselves on the various issues in the community.

Not only do we want some expression on the issues, we also want to know what you think is well done in the community and what you think is not so well done.

We offer the readers of The Echo the opportunity to express themselves through our letters to the editor column, which we call As Others See It.

The column is for you, so why not use it.

Editor's Notebook

by Jim Badgley

It appeared to be sports week in Haliburton County last week with a number of sports dignitaries taking in some of the fine weather.

One person commented that a sports celebrity dinner could have been held in Haliburton last week and within a few mile radius some of the more sought after sports figures could have been found.

At one time a person could have found Wren Blair and Jim Gregory of the managerial end of hockey fame, and Roger Nielson, the newest sports figure in Toronto, as the coach of the Toronto Maple Leafs.

Not only was hockey well represented in the area but probably for the first time major league baseball was in town. I had the opportunity to interview Doug Rader, the third baseman of the Toronto Blue Jays who just happened to be spending the all-star break at The PineStone Inn.

Doug must be a real plus for the Toronto ball club. First, from the fact that he has been doing a

good job, both at bat and fielding, and secondly, because he certainly is an easy person to interview.

He volunteered information quite readily and wasn't afraid to say what the Blue Jays need or compare the National and American Baseball Leagues.

Rader's play has impressed me anyway. In the two games I have been to in Toronto, Rader has hit home runs in both and was named player of the game in one of them after making some excellent fielding plays.

Last weekend I interviewed Caroline (Carrie) Pierce, Haliburton County's oldest resident.

Mrs. Pierce, who has an amazing memory, has seen a lot of firsts. During her 105 years she has seen the development of the automobile, airplanes, and many other things, but in interviewing her one quickly learns that not very much of what mankind does will surprise her.

The above photo of the Haliburton citizens band was taken around 1930 and we thought that with the Rotary Carnival coming up with plenty of bands on

hand for this parade, that this would be a good week to run this picture. Our thanks to Nellie Dart of Haliburton for submitting this photo.

Feir Play

by Creighton Feir

Now that we are reaching the half way mark of the summer season, with another month to go, so far the weather has been ideal, possibly a bit too humid at times, but on the whole it has been good for vacationing and most of the visitors we have been talking with have enjoyed their holiday up to this point. In speaking with several of the local merchants, they tell us that business is just about on a par with other years and others say they are down a little. I think that we all have to agree that it's not going to be a record smashing summer financially. Some of the tourist operators are crying the blues and some have not yet been filled to capacity. Let's keep promoting the summer tourist industry, but let's keep in mind that we still need year round business for a solid economy.

The Village of Haliburton is really going ahead. Much progress is being made and we have seen a great many changes in the past year. We must admit that much more has yet to be done, but progress doesn't come overnight. We are getting ready for the second phase of the sanitary sewer system. Many improvements are being made to the present arena. A new curling arena is being constructed which will include a section for squash courts and a room for senior citizens. A new proposed park, on Head Lake, that will connect with the present Rotary Park and Beach and which we like to call Haliburton's new Ontario Place. The information booth at the first crossing on Head Lake is having a face lifting and a great deal of work is being done on the grounds around the information booth that will make it quite attractive for visitors coming to town. The Haliburton ball park is in fine condition with a new fence around the outfield. Many new businesses have started up and who knows, one of these days we will see a new shopping plaza. At times we criticize many things, but let's give credit where credit is due, and it belongs in the hands of the local service clubs, the local council and our MPP, John Eakins.

I think that we all have to agree that the Legion Parade, in connection with last Wednesday's Legion Carnival, leaves a lot to be desired. We stand firmly behind the Legion and the work that they are doing in the community but may we suggest that they either have to get into the parade business or get out of it. Many visitors coming into Haliburton for the parade, for the first time, are astounded at this short and very impressive parade. Some of the Legion members we have been talking to are also upset over this situation and one member told The Echo that he will personally see to it next year that if it costs \$2,000.00 the Legion will put on a parade that will be really something. Let's not forget that it's the parade that brings the people into town.

I think that we will have to agree that the washrooms and change rooms building at Rotary Beach is nothing but a disgrace. In other words, it's a wreck. Vandalism has caused some of the problems and it might be an idea to tear the present one down and wait until the sewers go by and build a new one out of cement blocks.

Well, that time of the year has once again arrived. It's time for that ever popular Annual Haliburton Summer Carnival Year. This year, in honor of the Silver Jubilee, the carnival will be held for two days, Tuesday and Wednesday, August 2 and 3. You certainly won't want to miss this years big event with all of its thrills, excitement and entertainment. Thousands of people will once again pour into Haliburton for the two big days which, as always, will feature a gigantic parade with floats, three bands and marching units, and also in the parade will be the Carlsberg Championship team and wagon. The theme of this years parade will be "The Silver Jubilee". The parade this year will have the same route as last year, starting at Rotary Beach, coming out by the Salvation Army Hall, continuing up Victoria Street then over the new bridge, down the Main Street and onto the back street, and ending up back at the Rotary Beach and park. The parade is the thing and the Rotary Club are looking forward to more participation from local merchants, clubs and tourist operators.

The Haliburton County Social Planning Council held its June meeting at the Lloyd Watson Memorial Centre, at Wilberforce. The guest speaker was Keith Tallman, Deputy Reeve of the Township of Monmouth. Everyone was very impressed by the wonderful building that has been erected in Wilberforce and Mr. Tallman explained that the two year old building cost \$275,000. of which \$100,000. was provided by a capital works grant. \$68,000 was derived from a recreational grant, \$50,000 through public subscription, and the balance of \$57,000. was made up with debentures. He went on to tell us to what uses the building could be put, and it seems to be busy all the time and staffed by purely volunteer help.

Eric Andrews spoke about the Senior Citizens' Club of Wilberforce - how it is organized and how it operates. There are many advantages to the community as well as to the individual in the operation of a Senior Citizens' Club.

The Tennis Club have the gates all locked up at the tennis courts, except from 1 to 5 in the afternoon. Some of the general public have got around this lockout by climbing the fence and carrying right on with their tennis game.

As others see it

Dear Jim:

On behalf of Haliburton Minor Hockey, I would like to thank you and 'The Echo' for the pictures of the retiring midget players. They make a nice keepsake for the boys and they really appreciated them.

We plan to make this an annual presentation thanks to your generosity.

Sincerely,
Barbara Hodgson,
Secretary-Treasurer.

Books have been with us for a long time. The Chinese developed paper thousands of years ago, and there were great libraries filled with works written on parchment scrolls long before Christ. When a German named Gutenberg invented the printing press and it was possible at last to make the written word available to large numbers of people, the future of books and the wisdom they contained seemed assured.

Books have lasted through wars, purges, and all manner of human destructiveness. But the art of reading, it seems, faces a new and more dangerous threat in our lifetime. It's called television.

A study published recently by Statistics Canada and reported on in the Toronto Star shows how much television has effected the reading habits of Canadians.

The average Canadian, the report says, spends an hour and a half in front of the television set every day. That figure in itself may not seem too surprising to most of us. But what is surprising, and worth worrying about, is that the average Canadian spends a mere thirty-five minutes a day reading for his or her own pleasure.

The Star quotes Yvon Ferland, author of the Statistics Canada study, as saying, "There's no doubt T.V. is having an impact on reading habits."

The findings in the report, entitled "Reading Habits in Canada", are derived from a survey done in 1975. 30,000 Canadians aged 14 and over were questioned in the survey. Some 46 percent of those questioned said they read no books from year to year, not a single one.

Critics of television have long debated the dangers of the tube. The constant bombardment of violence that fills prime time hours is creating a nation of passive, indolent people who think that danger lurks around every corner, the critics say. Television doesn't teach you to reflect. It forces you to accept.

Whatever merit these arguments may have, there is no doubt that if television spells the end of reading for most Canadians, it will also spell the end of a nation able to grow and think.

Books are more than entertainment, though they are that too. Books are a means of knowing ourselves. They give us a means of experiencing aspects of life we wouldn't normally encounter. Books can teach us to question ourselves and the world around us in a way that television never can.

The cultured man, said the English poet philosopher Matthew Arnold, "sees life steadily and sees it whole" and sees that life through books, books which hold all the best that mankind has known and thought.

Television, like books, should be a tool to knowledge. Used wrongly, purely for escape, television can be a dangerous force, dangerous to the minds of the people who watch it constantly and accept its portrait of reality.

Each of us has a responsibility to see that the art of reading and reflection doesn't die. We must see television wisely, choosing to watch what is informative and intelligent, and turning off what is mindless and violent. If we don't do it soon, and teach our children to do the same, it may spell the end of reading. And that could be disastrous for us all.

from the Huron Expositor.

In the United States, lightning is considered by authorities to be a bigger threat to life than floods. It is estimated that lightning kills one person and injures four in that country every day. Such is not the case in Canada. Statistics Canada, for example, shows that only six people were killed by lightning in 1974 (last complete statistics).

One Toronto newspaper says its files show that 104 Canadians died from the bolts between 1962 and 1972, with eighty percent of the deaths occurring in Ontario and Quebec. In recent years there has been a dramatic increase in deaths by lightning - 10 people were killed in Ontario between July 1975 and June 1976 - a result of more lightning storms, according to specialists.

The Ontario Safety League states that you can expect, in your immediate square mile, one or two strokes during each thunderstorm. If your area, for example has 25 electrical storms yearly, you may expect from 250 to 50 lightning bolts to hit within a half-mile of your house this year.

According to the League, the most dangerous time is just before the storm when dark clouds appear and the air is charged with electricity. If you are outdoors at that time and your hair feels as if it is standing on end, you are being set up as a perfect lightning target. If you're in or on the water, get out. Stay away from wire fences, clotheslines, overhead wires or towers, and machinery. Avoid isolated trees and wide-open spaces where you might be the tallest thing around. A structure made of any type of metal will provide good protection, since metal is an excellent electrical conductor. If this is not available and you are on open ground, lie flat.

If you are inside, don't stand in doorways or near open windows. Keep away from the fireplace, sink, bathroom fixtures, the phone and the television set. It makes good sense to unplug all electrical appliances (lightning can produce an electrical current in the TV's antenna and cause a short circuit in the set.)

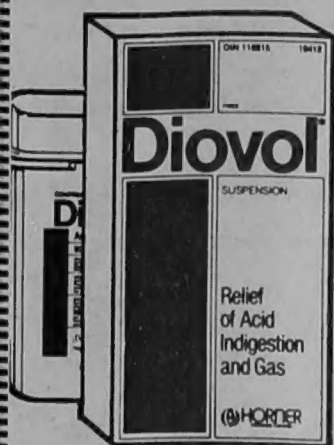

Even being trapped in a car is good protection. You are completely surrounded by metal and to the League's knowledge, lightning has never struck an occupant of a rubber-tired automobile.

Respect lightning, says the Ontario Safety League. It is erratic and dangerous.

"hot and cold running poison ivy". The case for vacationing in our beautiful province was put at such a competitive disadvantage by this negative advertising that as critic of this province's Industry & Tourism Ministry, I must take offense to it.

It is no small wonder that while foreigners spent \$2 billion in Canada last year, Canadians spent \$3.1 billion outside their borders, leaving an over-all tourist deficit in Canada of \$1.1 billion. Canadians travelling within the country, and visitors from abroad, spent over \$9 billion last year. This provided about 800,000 jobs, including about 500,000 year round. And our own provincial tourist industry, as you are well aware, generated \$2.8 billion in revenues and accounted for 200,000 jobs. But the growth rate in our revenues has been declining since 1974, along with our visitation to this province, and might I just suggest to you that your Ministry step in, in a case such as this.

While I am not for a moment questioning the right to freedom of the press, I must admit a sense of surprise that the Toronto Star would consent to print an article that so prejudices vacationing in Ontario that the effects may be permanently damaging.

Surely the promotional campaign of your Ministry does not belittle the merits of the area in which you are advertising in order to make Ontario appear better. I am sure you will agree with me that the approach taken by the Miami Beach Tourist Development Authority is in poor taste, and I sincerely hope that your Ministry will take the appropriate action at this time to make them aware of our feelings.

 The lowest or any tender not necessarily accepted.
 Ministry of Government Services

Special Church service

A special service was held recently at Carnarvon United Church when the communion table and pulpit covers were dedicated in memory of

Norman Brown. Mr. Brown, a lifelong resident of the area and member of the church, left to

mourn his passing Mrs. Muriel Brown, who was present from Brantford where she has taken up residence.

A long time friend and neighbor, Rev. Dr. Harold Vaughan, dedicated the memorials and spoke fittingly of the life of Mr. Brown. The soloist was Miss Gwen Lambert, of Brantford, a family friend.

Also present at the service were relatives from Belleville and Brantford.

17 areas have been identified

Seventeen areas in Ontario with potential for tourism development have been identified in a recently completed study by the Ontario Ministry of Industry and Tourism.

Tourism Development in Ontario: A Framework for Opportunity, is a two-volume

study presenting a province-wide strategy for tourism development.

Appropriate themes and activities are linked to each of the 17 tourism development zones. Tourism's role in connection with Ontario's social and economic goals is also taken into account in this strategy.

Development strategy is based on detailed examination of both the resources and markets for tourism in the province. As well, current and future trends are outlined.

"The Ministry of Industry and Tourism has already launched detailed studies in three tourism development zones," said Minister Claude Bennett. "These are intended to identify specific tourism opportunities."

"The first of these covers the area around Sault Ste. Marie and Wawa in Northern Ontario. The results of this study were the subject of a workshop seminar held in Sault Ste. Marie, June 20 and 21. The other two zones are located in Eastern Ontario. Additional workshops in Eastern Ontario will be undertaken this fall when these two zone studies are complete," he said.

Framework for Opportunity was prepared by Balmer, Crapo and Associates of Waterloo, Ontario, specialists in tourism and recreation planning.

Contract awarded for resurfacing

John Eakins, M.P.P., (Victoria-Haliburton) has been informed by Transportation and Communications Minister James Snow, that a contract has been awarded for Highway 7, in Victoria County.

The contract is for resurfacing on Highway 7, from 0.1 mile south of the north junction of Highway 28 northerly to 0.2 miles south of Highway 7B, Fowlers Corners, including intersection improvements at County Road No. 9 for 4.4 miles.

Work on the project is scheduled to begin in August, 1977 with completion set for early fall, 1977.

The contract is awarded to Northland Bitulithic Limited of Downsview, Ontario, at a cost of \$347,880.

Minden OPP investigating theft of materials

Members of the Minden detachment of the Ontario Provincial Police are investigating the theft of construction material from a lot on Percy Lake.

The OPP report that Gordon Benner, 27, of Toronto, was in the process of building a prefabricated cottage and materials that were on the site were removed.

Items missing include doors, screens, windows, sheets of panelling and plywood. The value has been set at \$2,000.

The theft occurred between July 17 and 22.

MUNICIPALITY OF DYSART

IN THE MATTER OF THE MUNICIPAL ACT AND IN THE MATTER OF A PROPOSED BY-LAW OF THE CORPORATION OF THE UNITED TOWNSHIPS OF "DYSART ET AL" TO CLOSE PART OF THE ORIGINAL ALLOWANCE FOR ROAD BETWEEN LOTS 25 & 26, ACROSS PART OF CON. 13, IN THE TOWNSHIP OF GUILFORD, AND CONVEY THE SAME TO THE ADJOINING LOT OWNER

NOTICE IS HEREBY GIVEN, pursuant to Chapter 284, Section 443 of The Municipal Act, that the Township Council of the Municipality of Dysart et al proposes to consider and, if deemed advisable to pass at its regular meeting to be held in the Council Chambers, Haliburton, Ontario on the 8th day of August 1977, a by-law to stop up and close the following:

ALL AND SINGULAR that certain parcel or tract of land and premises, situate, lying and being in the Township of Guilford, in the Provisional County of Haliburton, and being composed of part of the original allowance for road between Lots 25 and 26 across part of Concession 13 in the said Township, and being a strip of land 66 feet in perpendicular width, the centre line of which may be more particularly described as follows:

COMMENCING at a point on the original south shore of the Pelaw River where the same is intersected by the centre line of road allowance between Lots 25 and 26 at a point distant 285.12 feet measured southerly thereon from its point of intersection with the centre line of road allowance between the Townships of Guilford and Havelock;

THENCE continuing southerly along the aforesaid centre line of road allowance between Lots 25 and 26, a distance of 960 feet more or less to a point where the same intersects the inner limit of the original allowance for road along the west shore of Pelaw Lake.

AND WHICH said portion of road allowance to be hereby closed is further illustrated, shown in heavy outline, on a sketch drawn by H.C. Bishop, O.L.S., dated April 27, 1977, and hereunto attached.

DATED AT HALIBURTON, Ontario this 11th day of July, 1977.

News from Extendicare

DON'T WAIT TOO LATE TO PLAY:

It is difficult for persons who can come and go as they please to realize what it is like to be a shut-in. If you are not too far away many of them would prefer, because of the change, to visit you at the cottage or home with its fond memories of the past.

With the influx of cottagers we have been having more visitors of late.

On these hot and humid days sitting outside after our dinner at 5:00 p.m. has become quite popular. Jake played his harmonica at one of them. There's a softness and quietness at eventide that makes it one of the best times of the day. Snacks are served around 7:45 p.m. after which the trek to bed commences.

The warmer weather and the rain has given a boost to our flower plants and vegetables. It has been keeping Dr. Anderson and Ray Smith busy.

Dr. Anderson will be away in Ottawa for two weeks. In his absence you will have to endure me in this column.

THE STREAM OF LIFE GOES ON - Many of us here are in the sunset years of life. Soon we will be passing on but not so with the staff. The following have brought forth children recently: Cecile Richards, a girl, Pat Cummings a boy, and Jane Rosenberg a boy. We wish them well.

Monday the 18th came up hot, humid and sunny. Mrs. Miriam Lewis, our Activity Director, was quick to seize the opportunity to take a bus ride to Skyline Park where it would be nice and cool. It was a good opportunity for strolling around and viewing the town.

ONTARIO GOVERNMENT TENDER NOTICE TO EQUIPMENT OWNERS

The Ministry requires the following equipment for Rock and Earth Grading on Hwy. #507, approximately 4.5 miles North of Hwy #36 in the vicinity of Rockfort.

1 - Minimum 175 Net H.P., Power shift Crawler Dozer with Angle Blade; - with operator.
Required on or about August 22/77 for approx. 10 days.

1 - Minimum 75 Net H.P., Power shift Crawler Dozer with 6 way Blade; - with operator.
Required on or about August 22/77 for approx. 20 days.

1 - Minimum 3 cu. yd. Articulated Front End Loader with 4 wheel Drive and Toothed Bucket; - with operator.
Required on or about August 22/77 for approx. 20 days.

The above equipment will be working a 5 day week and a 10 hour day.

Sealed tenders on forms supplied by the Ministry will be received by the District Engineer until 1:30 PM o'clock Local Time:

WEDNESDAY, AUGUST 17, 1977

Specifications, tender forms and envelopes may be obtained in person or by mail from the District Office, 64 Monck Rd., P.O. Box 300, Bancroft, Ont., K0L 1C0.

The lowest or any tender not necessarily accepted.

Trying to pick out your house was quite a trick for some. Large ice cream cones were served. Mrs. Lewis drove the bus as usual. The trip being a short one, was not at all tiring.

Games and exercise continue to loosen us up.

Bingo is well attended, some of the residents using as many as six cards. We are greatly assisted by Kel Anderson and Dorothy Davidson. Shuffleboarding is new to most residents and extra space is provided so that persons in wheel chairs can play. It will take a little while for them to become more proficient.

Extendicare will participate in the Rotary Carnival parade on Wednesday, August 3rd.

Mary Packard, from the library, showed us some nice movies on Manitoba, lumbering at Tory Hill, and British Columbia, including Barkerville and Rodeos.

We had another barbecue on Thursday. It looked like a colorful lawn party with the tables and umbrellas located on the grass. The weather was just right. Altogether it was an enjoyable affair.

Our devotional period, on Friday, was led by Rev. John Smith of Lakeside Baptist Church. He read the 50th Psalm and gave a very helpful talk. Mrs. Smith officiated at the piano.

Mel Petrant was well liked by residents and staff. He was minus one leg. We are sorry to have to report that the other leg had to be amputated. Our best wishes go out to Mel. We trust that he will return.

We are indebted to Mrs. Donna Dillon, Extendicare's secretary, for typing the article on World Armaments which appeared in last week's Echo.

The way to a man's heart is through his stomach. The meals continue to be good. To Mrs. Darby and her staff we say thanks and keep up the good work.

TOM THOMSON - Since I have been here several persons have dropped in to talk with me about the mysterious death of Tom Thomson. It is now 60 years since they found his body and yours truly acted as a pall bearer. There has been many theories as to what happened. Was it drowning, by accident, suicide, or foul play. I personally think that the world will never know with any degree of certainty what really happened. The evidence is both conflicting and unconvincing. At the time of his death, age 49, he was practically unknown. He inspired the members of the Group of Seven which was formed in 1920 or 21. In the controversy that arose over the nature of their paintings, Tom for the first time became known throughout Canada. Up until this time Canadian artists painted Canada in the European style. Thomson painted Canada as a Canadian sees it and for the first time we had a style of our own.

YESTERDAY IS A CANCELLED CHEQUE* TOMORROW A PROMISSORY NOTE* TODAY IS READY CASH - USE IT.

Museum visitors during last week

Museum visitors during the past week included Dorothy & Nelson Wetherell, of Brockville; Bob and Helen Squires of Brantford; Mr. & Mrs. J. Arnold of Mississauga; Ethel Dows of Maple Lake; Maria Bodner of Los Angeles; Don Halsall family of Agincourt; Heidi, Carrie, Katie Williams, Mame's Farm; G. De Vries, Kortenhof, Holland; Connie Wilton and Giles Ude, North Bay; Jill Melynychuk, Winnipeg; Dan and Anne Delong, Bowmanville; Carol Alexander, Mallorytown; Cathy Hawthorn, Brantford; Barb & Robin Ramsden, Mississauga; Lillian Razum and Family, Hamilton; D.M. Finch, Carnarvon; Richard Brooker, West Hill; Mr. & Mrs. D.M. Jardine, Dundas; Mrs. P. Pemberton and Joy, of Scarborough; Mrs. B.E. Free and David, Oshawa; Phyllis White, Peterborough; Griff & Kay Smith of Hamilton; Ruby Stothart and Isabella McAuley, Chatham; Leda Roberts, Haliburton; Peter & Lois Hiscott, Niagara-On-The-Lake; Alice Moule, Bradford; Jean Moule Cambridge; Patricia Wemkamp, Haliburton.

Miskwabi annual meeting

The Lake Miskwabi Cottagers' Association elected its executive for 1977 to 1979. Returning as President is J.G. Stickland. Other members of the executive are Lorne Atkinson, Vice-President; Steve Westbrook, Treasurer; Mrs. J. Winfield, D. Stempin and R. McCord, Directors; and Mrs. Monica Stickland, Secretary.

The third annual general meeting of the association was held Saturday, July 16, at the airstrip, Lake Miskwabi. Chairman Stickland welcomed a large crowd of area residents and cottagers and proceeded to advise of the status of the more significant events affecting the area.

The developer has requested the Minister of Housing to refer his north shore of Lake Miskwabi holdings, including the proposed plan of subdivision, to the Ontario Municipal Board for a decision.

The Minister of Housing is considering referring the whole Miskwabi area to the O.M.B. as it is not yet included in the Dysart Official Plan.

The Association is following with the municipality on having roads not yet upgraded to municipal standards, so

upgraded, in line with the agreement with the developer. Stickland further advised that a request had been received from the Minister of Natural Resources for a sampling of bass from the lake for mercury testing purposes. Cottagers were requested to assist in this project.

The Chairman next introduced the guest speaker, Officer Magee, Community Relations Officer of the Minden detachment of the Ontario Provincial Police. Officer Magee gave a most interesting presentation of the O.P.P.'s cottage security package which includes the use of identification stickers and Brinks "invisible ink" pens.

Officer Magee provided additional tips on cottage security and covered the operations of the O.P.P. facilities and equipment, etc. Officer Magee was accompanied by Dick Kinsman of the Stanhope Fire Dept. from whom the Brinks pens are available.

After a most spirited question period, Officer Magee was presented with a remembrance of the occasion by the Chairman and enthusiastically thanked by the group.

The Chairman continued with the remaining items of business. A Ministry of Environment Sanitary Survey application was approved by the group. The next Newsletter would contain details on how area residents and cottagers could obtain "Brinks" pens.

There was no interest in having the "airstrip" hill paved. Cottagers were encouraged to support the "Ontario Cottager" and a new Dysart zoning bylaw was being mailed out to taxpayers.

The Association Directors would be meeting with Dysart council on August 8 and cottagers and area residents were requested to bring any items for presentation to council to the attention of the Directors before that date.

During the question period, cottagers raised the problem of the narrows between Miskwabi and Long Lakes and of problems caused by public access to Long Lake. A work party to clear up the Miskwabi boat landing/beach area was suggested.

The Treasurer's Report was presented.

Updated financial forecast good news

An updated financial forecast could mean good news for Ontario Hydro customers in reduced rate increases, the Ontario Energy Board was told today.

Pierre Genest, Hydro's lawyer, said present forecasts indicate that 1977 revenues may exceed anti-inflation guidelines by \$109 million rather than \$16 million, as forecast in its initial submission to the OEB. Ontario Hydro now forecasts 1977 revenue at \$2 billion.

Provided that unexpected costs do not occur, such as those which would be incurred in a major outage of a nuclear station, this could have a substantial impact on 1978 rates. Hydro's submission had proposed an increase of 11.3 per cent to 352 municipal utility customers and 12 per cent to 100 direct industrial customers.

"This should come as very good news to Ontario Hydro customers," Mr. Genest said.

"If the forecast turns out to be correct, in practical terms, it means that the actual average bill of Ontario Hydro's bulk customers will rise (in 1978) by only about half that indicated in the Hydro submission."

Mr. Genest said the Ontario Hydro Board has adopted the position the excess revenue should be

rebated to customers in 1978 when the actual amount of excess revenue will be known. Final 1977 operating results should be available in January.

Mr. Genest noted that the Ministry of Energy, in referring Hydro's 1978 rate submission to the OEB, "has said that it would be his objective in the form of a lower rate level in 1978 and this will be the subject of a recommendation by the OEB."

Main factors for the improved financial outlook in 1977 are:

- lower administration costs than forecast.
- better than expected performance of the Pickering nuclear station, reducing reliance on expensive coal-fired power production.
- higher revenues from export power sales, mainly to the United States.
- cheaper purchases of power from other utilities.
- savings in interest and fixed charges because of delays in the in-service dates of new power stations.

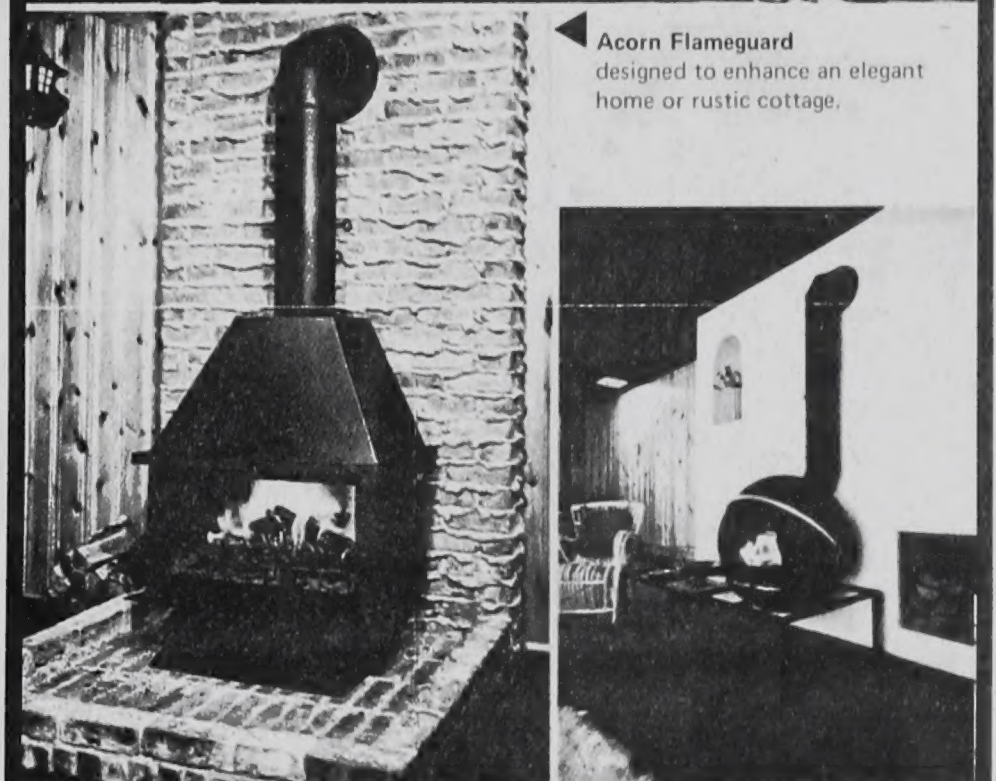

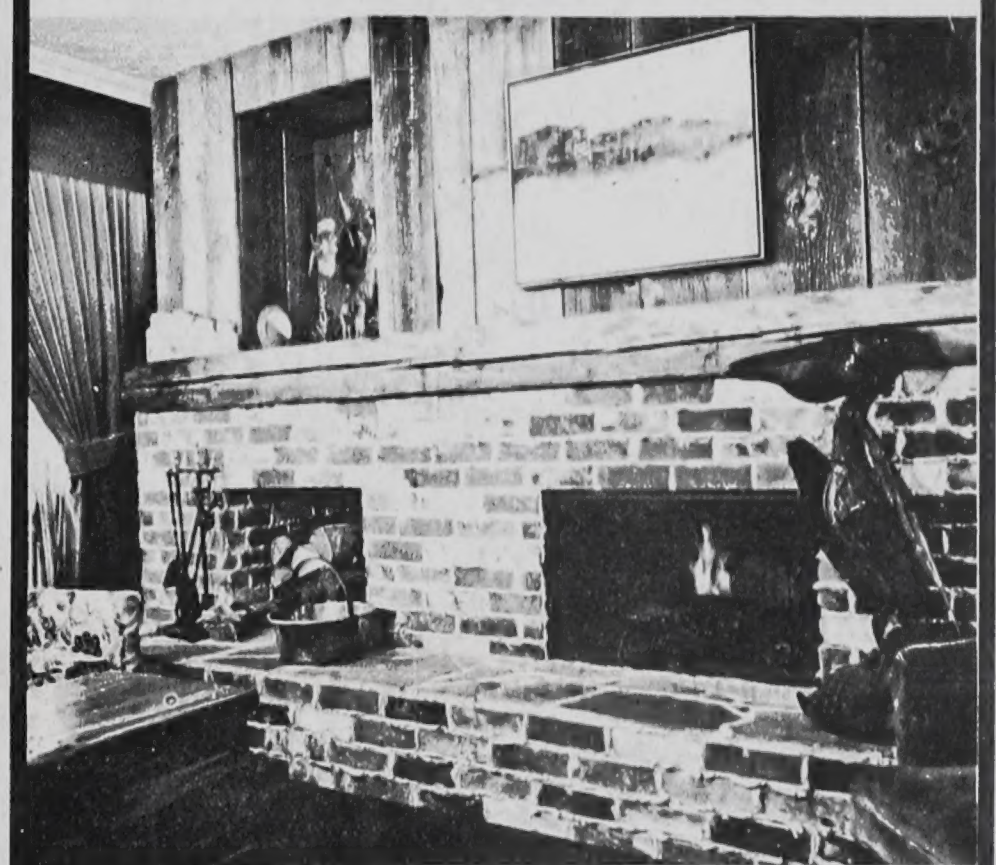

Mr. Genest made his remarks in his opening statement on behalf of Hydro before the 1978 rate hearings of the OEB.

He said details of the new forecast would be presented to the OEB next week.

Haliburton Highlights

BY CREIGHTON FEIR

Ed Miller who owns and operates Millers General Store in Haliburton phoned us the other day when it was very hot and humid. He told us that he had just purchased two new thermometers and they were showing that it was 119 degrees outside at the back of his store and it was 100 degrees inside the store. Boy that's hot.

The Haliburton Hockey Haven is now in progress at the Haliburton Arena and will run right through to the end of August. Many of the professional hockey players are in attendance to show the young boys the finer parts of the game.

The Legion Pipe Band from Haliburton are once again playing for many local functions and parades in Haliburton and surrounding area. The band is sounding good and we look forward to listening to them more this summer.

The Haliburton County Social Planning Council will not be holding any meetings in July and August. The September meeting will be held in the Lochlin Community Centre on the 4th Thursday, September 22nd.

The municipality of Dysart et al has announced a Derelict Motor Vehicle Removal Program. Your help is urgently needed to locate and report derelict vehicles in all areas of the municipality. Removed at no cost to the owner. Please help us clean up your community. To report vehicles please call 457-2651 or 457-1986. Time is of the essence - do it now!

Medley's Pizza had its official opening on Tuesday, July 26th, at 11:30 a.m. The new business is located on Victoria Street beside the Flour Shop Bakery. They are going to serve quality pizza, charcoal broiled hamburgers, hot dogs, french fries and onion rings.

The municipality of Dysart et al have announced that the Civic Holiday has been moved to September 19th.

We are certainly perturbed this week that many people, both local and visitors, are throwing their litter, such as papers, pop cans and bottles, cigarette boxes, etc., all over the place. Please use a little common sense and place them in the litter containers that are close by.

Well, for you baseball fans it will sure be news to you that we had one of the Toronto Blue Jays in Haliburton last week. Doug Rader, who plays the infield for the Blue Jays, and his family, took time out during the All Star break and came back and spent a very enjoyable four days at PineStone Inn. Roger Nielson, new coach of the Toronto Maple Leafs, was also a visitor for a few days last week at the PineStone Inn, along with Jim Gregory, General Manager of the Leafs and part owner of the PineStone.

At a recent meeting of the Haliburton County Social Planning Council, Lorne Coburn read a description of the senior citizens' assistance program, whereby the elderly can be given aid in their own homes rather than having them institutionalized. In this connection, a letter is to be sent to Mr. Kinder, Area Director, Ministry of Community & Social Services, Lindsay, to explain in more detail, or perhaps send a speaker to talk on this important subject.

THE COUNTY ECHO

Second section

Berkley Feir, long time publisher of the Haliburton County Echo, and now a resident of Extensicare, took a tour of The Echo facilities and was on hand to watch the last of the paper being put together last

week. Taking a look over last week's front page is Creighton Feir, Berkley's son and General Manager of The Echo, and Berkley.

Silver Jubilee

Rotary Carnival is ready to go

The Haliburton Rotary Club will be celebrating the Silver Jubilee of Queen Elizabeth at the Rotary Carnival scheduled for Aug. 2 and 3 at the fairgrounds.

Beginning Tuesday, Aug. 2, at 4 p.m. there will be midway rides, pop, hot dogs, splash tank and a chicken barbecue.

During the evening there will be a bed race, which starts at 7 p.m. on the Main Street. Along with the midway there will also be games of chance, concession booths and bingo in the arena auditorium.

The Jubilee Pub will be held in the Legion auditorium.

There will be the midway rides again on Wednesday, Aug. 3, beginning at 4 p.m.

At 7 p.m. there will be a monster parade, starting at Rotary Beach with the Silver Jubilee as the parade theme.

Included in the parade will be three bands, the Haliburton Legion Pipe Band, the Ontario Provincial Police Pipe Band and the Peterborough Drum and Bugle Corp.

The parade will also include floats, Haliburton majorettes, marching units

and decorated bicycles. The Carlsberg Championship Horse Team will also be a part of this year's parade.

Following the parade will

be the midway, a bingo and the Jubilee pub at the fairgrounds.

A special feature of both

days will be the Labatt's Blue Balloon.

The draw for the 1977 G.M. Execuvan will also take place August 3.

Doug Rader

Toronto Blue Jay in county

There was a Blue Jay in Haliburton last week. People will tell you that there are lots of Blue Jays in Haliburton County, but we would guess that there was only one of the human species.

Doug Rader, third baseman for the Toronto Blue Jays, and his family spent the all-star break enjoying hot Haliburton weather and some good fishing.

The newspaper reporter caught up with Rader at the PineStone Inn on Tuesday afternoon one week ago, but was a little rushed because Rader just couldn't wait to get back at some of our local bass fishing.

How does Doug Rader enjoy Haliburton County? "Beautiful," is his description of it. Being an avid fisherman and having what sounded like a lot of luck, Doug certainly couldn't have been upset with the area.

What brings a major league baseball player to Haliburton County? Rader explained that one of the fellows who works for the Blue Jays had at one time worked for Jim Gregory, the general manager of the Toronto Maple Leafs and a part owner at PineStone.

Rader says that Toronto doesn't have a bad ball team pointing out that there is very little difference in good and bad teams in the league.

He said for Toronto it will be a matter of developing or trading for good ball players. Rader pointed out that the teams competitiveness in the league is not that big of a surprise. He noted that players like Bob Bailor had good minor league careers going and just needed a chance to get into the majors.

Rader has played in the major leagues since 1967, when he started with the Houston Astros of the National League. He played for San Diego in the National League for a year and a half before being sent over to the American League to the Blue Jays.

What is the difference in the two leagues? Rader admitted that the National League seems to have more competition. He pointed out that there are some good young ballplayers in both leagues.

A better than average hitting infielder, Rader is better known for his ability as a fielder. He was Golden Glove in the National League at third base five times.

When Doug came to Toronto early in the season he

was used primarily as a designated hitter, but an injury to the regular Toronto third baseman put him back in the position he is used to.

Despite hitting and fielding well Doug doesn't think he will be at third base for too much longer. He pointed out that the regular third baseman will be back soon and will likely return to that position.

Rader said it is difficult not playing all of the time, but he will make due somehow. He

pointed out that he is willing to play almost any position on the team.

As a hitter Doug said that he hasn't really had too much time to look over the pitching in the American League. He pointed out that he has had some success against the better known pitchers and hasn't been so lucky against unknown hurlers.

Who are the best pitchers Doug Rader has ever faced? He said that for consistency Drysdale, Kofax and Gibson

were about the best.

The toughest he has found in recent years is Tom Seavers, formerly of the New York Mets and now with the Cincinnati Reds.

Doug, has the distinction of being one of two Blue Jays on the all-star ballot but his problem is that he was on the National League side.

Rader and his family, wife Jeannette and three children, spent three full days at the PineStone.

Many highlights to summer carnival

From parades and bingos to canoe racing and jazz artists, this week promises to be a real winner for Minden's

\$800 damage result of single car accident

A single car accident on Bobcaygeon Road in Minden resulted in \$800 damage to a car driven by Steven Duncan, 20, of Agincourt. The accident took place Saturday morning at 1 a.m.

The Minden detachment of the OPP report that the car was northbound when it rounded a curve, skidded into a tree and spun about striking a second tree.

Duncan has been charged with failing to report a collision forthwith.

A two car accident on Harburn Road has resulted in \$1,000 damage to each vehicle.

Drivers of the vehicles were Paul Brohm, 31, of Haliburton and Wayne M. Roberts, 44, of Haliburton. Both received minor injuries in the crash which took place Sunday morning at 3:15 a.m.

The OPP report that the Brohm vehicle was northbound and the Roberts vehicle was southbound when they struck on a curve.

Brohm has been charged with failing to share half of the roadway.

A motorcycle accident on private property has sent two youngsters to Ross Memorial Hospital with injuries.

Injured were Davide P. Newton, 13, of Willowdale, who received multiple abrasions and Julie Clarke, 14, of Agincourt, who received a fractured left wrist and abrasions.

Newton was the driver of the motorcycle.

The OPP report that the motorcycle was going along a trail when the driver applied the brakes and the vehicle fell over on its side.

The accident took place July 18, in Stanhope Township.

Rotary Club annual Summer Carnival.

This year it's an action-filled four days of fun and excitement beginning July 26 with a giant turkey bingo at the Minden Community Centre.

Wednesday, July 27, sees Minden's Main Street transformed into an outdoor mall and will feature an ever-popular bed race through the town's streets and roads.

Hard on the heels of the bed race is the S.F. Stinson Memorial Canoe Race, held annually in conjunction with the Rotary Carnival. The 'Stinson' plies the waters of the scenic Gull River and finishes at the bridge in downtown Minden.

Immediately following is the Rotary parade which, this year, promises to be the biggest and best ever held.

The Queen's Jubilee, as well as Rotary's thirtieth anniversary of service to the community of Minden is the theme of this year's parade. Organizers are expecting hundreds of entrants, colorful floats and marching bands as well as thousands of excited on-lookers.

The festivities continue that evening at the Community Centre with the usual carnival array of rides, games-of-chance, non-stop bingo, food concessions, and a gigantic beer garden with live entertainment.

There's much of the same in store Thursday night with the Labatt's Balloon on display and the lucky draw for a trip for two to the Barbados.

Friday night offers some breathtaking room when carnival goers can visit their own favorite night spot or just relax and prepare for the gala closing night that features the 4th Annual Canadian Blues and Jazz Festival.

Inaugurated just four years ago by the Minden Rotary Club, its Canadian Blues and Jazz Festival has become one of the leading showplaces for this style of music and is now known far and wide for its top flight artists and their show-stopping performances.

This year's edition is headlined by singer Joe Williams, trumpeter Sam Noto and the Bernie Senesky Trio.

A barn fire totally destroyed a barn owned by Basle Cooper of West Guilford. Buck Baker, the fire chief in Dysart et al, looks over the scene as the fire begins to

die down. The fire took place last Tuesday night, early in the evening.

Toronto men escape injury in light plane accident

Two Toronto area men escaped serious injury when the airplane they were in

flipped over on Oxtongue Lake and sank at 8 p.m. Saturday.

Charles B. Copeland, 36, of Milton, received lacerations to his forehead and Robert A.

Arwick, 44, of Toronto, received lacerations to both legs as the result of the accident. Copeland was the pilot of the plane.

Neither person was hospitalized in the accident.

The Minden detachment of the Ontario Provincial Police report that the aircraft was coming in for a landing and hit the water too hard, the nose struck the water, flipping the plane onto its back. The plane sank before observers could tow it to shore.

the camp after it had been driven to Toronto.

Charged is David Paul Birchard, 17, of Haliburton. The incident took place July 21.

17-year-old charged with break, enter and theft

A 17-year-old Haliburton youth has been charged with break, enter and theft over \$200 as the result of an incident at the Haliburton Hockey Haven.

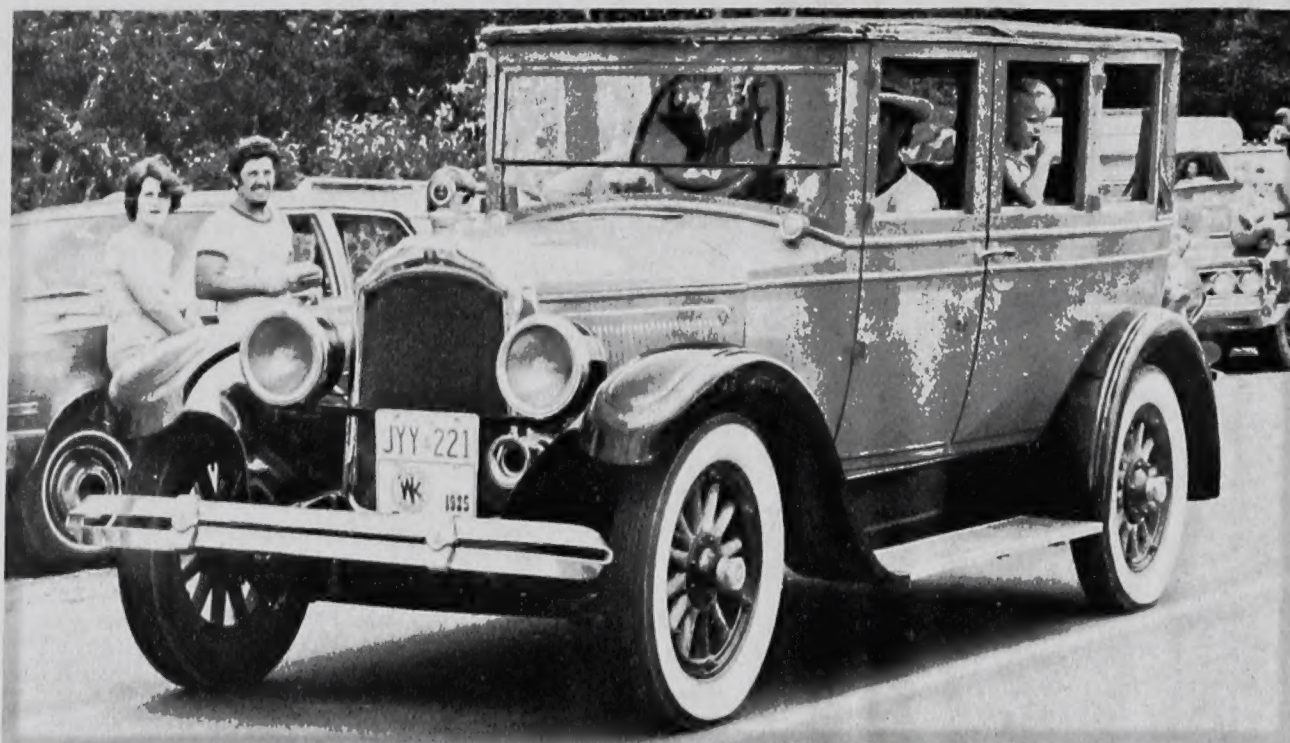

The Minden detachment of the Ontario Provincial Police report that the camp offices were entered through a window and the keys were taken for a station wagon owned by the Hockey Haven. The vehicle was found at

Toronto Blue Jay third baseman, Doug Rader, along with his wife Jeannette and three children, spent the major league all-star break at PineStone Inn, in

Haliburton. In the picture are Rader, Jeannette, Mathew and Christine. Daughter Elizabeth was a little camera shy that day.

The Country Good Times

The best antique car in the Wilberforce Country Good Times' Parade was this 1925 Willy's owned by

Norman Grant. Organizers of the parade pointed out that it was the only antique car entered in the parade as well.

Photos by
Jim Badgley

This young lady wasn't too pleased at all about getting on the merry-go-round at the Country Good Times in Wilberforce. Siegfried Wiedemann, the girl's father, tries to get young Jennifer, 1½, to stay on the ride. They are from R.R. 1, Loretto, Ont.

This clown was part of a clown band from Brampton, who were a popular addition to the Country Good Times Parade held in Wilberforce. The Country Good Times were held last Friday, Saturday and Sunday.

Karl Tallman takes his chances over the water while people throw balls in attempts to dunk him. Karl didn't get wet while the photographer was there. What he was getting was hot sitting in the sunshine. Perhaps after sitting there long enough he would have been happy to have been knocked in.

The best comedy float award in the Country Good Times Parade went to this Wilberforce Jail entry by Derek Smith. The Country Good Times were held last weekend in Wilberforce with a large number of people attending.

The Girl Guides were among the many people and groups to participate in the annual Country Good Times Parade held in Wilberforce. The three day

Country Good Times proved to be as successful as ever for the many participants. The Country Good Times was held last weekend.

The games and midway were popular events at the Country Good Times held Friday, Saturday and Sunday, in Wilberforce. The three day event drew large crowds with people coming from all over Ontario

to participate. The Country Good Times featured rides, games, food, beverages, and an exhibition area this year. The Silver Jubilee of Queen Elizabeth was a theme for this year.

This and That

BY JENNIFER WOODS

Have you ever made your own mayonnaise? It is surprising how easy it is. For this recipe a blender is needed. A good trick for making mayonnaise thick and creamy looking is to have all the ingredients at room temperature. It really works - of course, it should be stored in the refrigerator. All homemade mayonnaise should be blended at a slow speed to prevent curdling.

BASIC MAYONNAISE

1 Egg
1/2 tsp. dry mustard
1/2 tsp. salt
2 tbsp. cider vinegar
1 cup oil (polyunsaturated)

1. Break your egg into the blender, along with the salt, mustard, vinegar and 1/4 cup of the oil. 2. Blend slowly for 10 seconds. 3. Slowly add the rest of the oil with the motor on low speed. Makes 1 1/4 cups.

TASTE VARIATIONS

For fruit salads add 1/4 cup honey and 1/4 tsp. celery seed.

For curry flavor add 1 tsp. curry plus 3 tbsp. lime juice.

For onion flavor add 1/4 cup chopped green onions.

Add parsley for Green Goddess dressing.

Here is a recipe for cole slaw that was given to me by my cousin Heather who is visiting from San Francisco. She and her brother David are very impressed with this beautiful country.

HEATHER'S HOMEMADE COLESLAW

1/2 FRIM CABBAGE
1/2 tsp. dry mustard
1 tbsp. honey
1 1/2 tsp. salt
3 egg yolks well beaten
1 cup milk, scalded
1/2 cup cider vinegar
1 medium onion grated finely.

1. Cut cabbage into quarters, wash, drain and shred finely. 2. Chill the cabbage for 30 minutes. 3. Add the grated onion and mix well. 4. In a double boiler mix mustard, honey, salt and egg yolks. 5. Gradually blend in milk and stir until slightly thickened. 6. Remove from the heat and add the vinegar. 7. Pour the hot dressing over the cabbage and refrigerate. Serves 6.

COUNTY ECHO FAMILY

Minden News and Views

by Jeanne Sears

The community sends belated good wishes to these people at Hyland Crest Home who celebrated birthdays in July - Lillian Miller, Myrtle Roberts, Caroline Jones, Amelia Good, Caroline Pierce Wilbert Sisson and James Voycey.

All his friends send good wishes to Fred Walker who has been in hospital.

Winner of a merchandise prize at M.J.'s Factory Outlet last week was Bob Martin.

Mrs. Thelma Ewing had Mrs. Lottie Hawkins, of St. Catharines, visiting her for a few days.

Sincere sympathy goes to the family and friends of the late Alfred Cox who passed away last week.

Photography instructors are honored

Jean Irvine Walker and John Barras Walker, who for the past eight years have instructed at the Haliburton School of Fine Arts photo courses have been honored by the National Association for Photographic Art.

On July 9th, at the annual NAPA Camera Canada College, in Ottawa, they were given the association's Certificate of Honor for their contribution to photography in Canada.

In the past 14 years they have presented more than 800 lectures across Canada and in Europe. Their photography has won awards in North America, Asia, South America and Europe. They have been awarded honors from Germany and Japan for their contributions in promoting photography as a hobby and art.

As photographers, the Walkers work regularly for such clients as national airlines and tourist boards in Canada and Europe, and have been honored by the Vienna Tourist Board and Austrian National Tourist Office for their photography. They are associate editors of the MacLean Hunter publications "Photo Canada" and "Canadian Photography," write a syndicated newspaper column, and were for some years programming on television on the subject of photography.

Jean Irvine Walker is now the photo columnist of "Touring and Travel" magazine, and the director of Jean Irvine Walker Lecture Services which works with major photographic manufacturers on the promotion of photography.

John Barras Walker, FRSA is a charter member of the Photo Historical Society of Canada, and this year marks his 47th year as an active photographer.

Mrs. Allan Taylor visited with Mr. & Mrs. Ron Avarell & Family at Orono last week.

Mr. & Mrs. Nick Cromshuk and Nicole, of Scarborough, visited with her parents Mr. & Mrs. Joe Warburton and other relatives and friends.

Mr. & Mrs. Earl Hewitt spent a few days last week in Toronto, went to the races and also had dinner and an evening at the CN Tower and report having a very enjoyable time.

Mr. & Mrs. Wm. Beers & Family, and her mother, Mary Wright of Scotland, are home after a holiday in P.E.I.

Bradley Robinson enjoyed a weekend reunion of some of his fellow students from Western University held at Burlington.

Next Saturday, at 1, will be the Library-Museum Auction Sale with Greg Hickson as auctioneer at the curling club. There will also be elephant

table, rummage goods and book sale as well. If you have articles for this please call 286-1485 for further information or pick up of goods.

Mr. & Mrs. Figueiredo and daughters Melissa and Elizabeth spent the 4th of July weekend with her parents. While here, she was guest soloist at Minden United Church; she spent two weeks with her parents who returned to Binghamton, N.Y. for one week. While there, Cairine, who is the contralto

soloist in their Methodist Church, sang at the 9 and 10 o'clock services where the McCareys were in attendance.

Congratulations to the Rotary Club who are celebrating their 30th year of service in our community. See you at the Carnival!

Mr. & Mrs. Bob Pearson and boys report having a very interesting time on their holiday in eastern Canada.

Have A Melon Time

Because of their refreshing flavour and juicy sweetness, melons make a great summer fruit. The three most popular types are the honeydew, the cantaloupe and the watermelon. They are best bought when firm, with a slightly yellowish underside, which indicates ripeness. They are economical and easy to prepare whether eaten as is, or in a fresh fruit salad or as melon balls in a punch. They could also be cut in half, scooped out, mixed with other fruits and served in their own shell. Even the seed can be used. Watermelon Rind Pickle: 1 watermelon (about 8 pounds) 4 cups sugar 2 cups water 2 cups white vinegar 1 cup salt 1 cup onion rings Remove hard outer skin and then cut rind in 1 inch squares. Use 8 cups. Combine 3 cups boiling water and salt and pour over rind. Allow to stand overnight. Drain and rinse with cold water, and then cook for about 30 minutes. Add spice bag to water, water and sugar and boil for 5 minutes. Add this mixture to rind and cook for about 45 minutes. Discard spice bag, remove rind from syrup, boil the syrup, pack rind in clean jars and then pour a syrup over rind. Seal. (Makes about 6 cups.) Use as a meal relish.

19 take part in talent contest

The Haliburton Legion Amateur Contest, which was organized and run by Harold Bannon, drew entries from many areas, including Lindsay, Lakefield, Toronto, Havelock, Bracebridge, Minden and Haliburton. Pictured are Stephen Main and Nancy Richards.

Harold Bannon, organizer and master of ceremonies for the amateur contest held in conjunction with the Legion Carnival, calls for the next act. Mr. Bannon, Deputy Reeve in Dysart et al, has been a worker at the Legion for many years.

A total of 19 contestants, from such places as Bracebridge, Toronto, Lindsay, Lakefield, Havelock, Minden, Maple Lake and Haliburton participated in the Legion Amateur Contest Wednesday night.

Prize money totalled \$210 in the event which was part of the Legion Carnival.

Top spot in the singing, 16 and under division, went to the Lehay Sisters of Lakefield. Lean McGuire of Maple Lake was second and Nancy Richards of Haliburton was third.

In the 17 and over singing division, Scott Gartshore of Minden was first. Curtis

Gartshore of Minden was second, and Sharon Beck of Toronto was third.

The Lehay Sisters, of Lakefield, took the step dancing award for groups under 16. They range in age from 13 to seven years.

In the 16 and under instrumental division, Donell Lehay of Lakefield took top spot. Donell is nine years old.

Glen Warburton, 16, of Lindsay was second and the Lehay Family of Lakefield was third. All three top place finishers played the violin.

In the 17 and over division, Leonard Gervais of Lindsay was first with a violin, Hector Bannon of Havelock was second with a violin and Steven Main of Haliburton was third with a guitar.

Master of ceremonies for the show was Harold Bannon.

Victoria County

planning

The general policy of Victoria County's proposed official plan will be that the further development of the county should be aimed at providing as pleasing an environment as possible to all residents of the county through proper management of man-made and natural environmental features.

This statement of policy is contained in the first draft of the policies which will be used in the county's proposed official plan. The draft was prepared by County Planner David Johnston and his staff for preliminary consideration Tuesday by members of the county's planning and restructuring committee.

The draft report says in order to achieve this general policy, environmental assessment shall generally be required for major projects of both the private and public sector. Such projects as the construction of new roads and highways, transmission corridors and other major linear utilities appurtenances, major lakeshore development, news communities and major extensions to existing ones.

Gems of Truth

GOD'S WAY OF SALVATION

The Scriptures teach in plain and unmistakable language that all mankind is lost and guilty of sin in the sight of a holy God. This is the evident teaching of the Lord's servant the Apostle Paul as set forth in the 3rd chapter of the Roman Epistle, verses 10-23.

Paul makes it very clear in these verses that the guilt of mankind is universal and that Jew and Gentile are involved in it. He says "all the world" is

guilty before God, and that "all have sinned," meaning both Jews and Gentiles.

Paul also shows here that the ruin of mankind is not only universal, in that all men are guilty of sin, but that it is likewise "utter", meaning that there is no good in any one. These words are perfectly plain, so that all who will may understand them. This description of the ruin of mankind in sin is the Holy Spirit's picture, and is therefore a true picture. It is very offending to the pride of man,

but that does not make it any less true. The whole human race is lost in sin and guilty before God.

Therefore, the fact remains that since all men are lost in sin and therefore guilty in God's sight, that the chief and greatest need of man is that of "salvation." If a lost soul is not saved in time, that soul will be lost in eternity. The Apostle John reminds us that a guilty world is already under the "wrath" of God, and the sinner who is not saved in God's own way, will "abide" under the wrath of God forever, John 3:18, 36. It is either salvation or damnation, there is no neutral ground in this matter. The sinner must be saved here and now as there is no salvation after death.

Also, the sinner must be saved in God's own way, or else he will never be saved at all. Not a single, solitary lost soul can ever get to Heaven in his or her own way. Salvation must come from the same Holy God who declares a sinner to be guilty.

How then can the lost be saved? What is God's way of salvation?

Scripture declares that there is only "one" way. Many deny this thought as being "too narrow." The modern and liberal mind in their thinking and belief are quite insistent about it. But, it matters not what man says, since in the final analysis the only thing that really matters is what God says in His Word. That Word is "final" and it alone is sure and true.

The teaching of that Word is that eternal life and salvation are the "free" gift of God, made possible by the gift of His only begotten Son, John 3:14-16, Romans 6:23, Ephesians 2:8, Titus 3:5. God's gift of love to a perishing guilty world is His only begotten Son and He is "that eternal life" which was with the Father from eternity. 1 John 1:2, John 1:4.

All those who truly believe on the Son have eternal life, because that life is in the Son. It is too be found nowhere else. Thus to have the Son is to have eternal life. 1 John 5:10-13. All claims of being a child of God can be tested as being true or false by the criterion of the Son.

The Word of God also teaches that salvation is the gift of God by "grace." The Holy Spirit plainly reminds true believers that their salvation cannot be earned or merited by human works or deeds, but it is received from God as a "free" gift. The sinner you see, is a bankrupt and therefore has not the wherewithal to gain salvation, he must receive it as a "free gift" or else he never will be saved at all.

It is of utmost importance that we understand and recognize the fact that we must be saved in God's way, if we would be saved at all. John 14:6, 3:36, Acts 4:12. In the first place there is only one class of people that may be saved, that is, sinners. It is the sinners alone that Jesus Christ came into the world to save. Luke 5:31-32, 19:10, 1 Timothy 1:15.

The fact ever remains that the Lord Jesus Christ is God's remedy for sin. He alone is the Saviour, we can never be our own. If this were possible, God would not have sent the Son to carry away the sinner's load. Romans 4:25, 5:1, 11 Cor. 5:21. There is only one way to become a child of God. That way is the Son.

Continued Next Week

The Word of God

by Brian V. Sullivan

As we continue our look at Acts 2, we find that there were individuals that "gladly received the word and were baptized" (Acts 2:41). These saved individuals, called the "church" in Acts 2:47, set an example for the obedient who were to follow.

They set the example in their attitude toward the authority of God. In John 14, 15 and 16th chapters Jesus had promised that the Holy Spirit would come and guide the apostles into all truth. This promise was repeated by our Saviour just prior to His return on high (see Luke 24:49). Involved in that promise was the fact that they would be inspired in their preaching and teaching. Such was what was happening on Pentecost in Acts 2. Look at verse 4 and you will see that the Holy Spirit was inspiring the apostles, confirm that with verse 14. Now, back to the obedient of that day (the church), what did they do with the apostles

doctrine? Listen to verse 42: "And they continued steadfastly in the apostles' doctrine....."

The "apostles' doctrine" was that which Jesus had promised in Matthew 16:18-19. It was the "will of heaven" being made known on the face of the earth. Those early Christians recognized that fundamental fact and so they continued steadfastly, that is true-to, faithful to, that which was revealed by the inspired apostles.

There is a need in the religious world of today for a return to the will of heaven revealed through the apostles. Many things practiced in the field or realm of religion today bear no resemblance to anything authorized, practiced or taught by the inspired apostles.

Since the apostles were entrusted with the precious words of life, we need to listen to them, not the opinions of men. A religion built upon the decrees of men is a man's religion. It does not merit, nor should it expect heavenly approval. The fact that a given doctrine may be popular among men, or may have been practiced by previous generations does not validate its authority. If a thing, anything, is not engaged in with full scriptural authority, it is iniquitous (law-less). Peter, the inspired apostle expressed it in these words: "If any man speak, let him speak as the oracles of God;" (1 Peter 4:11). Paul, the inspired apostle said: "And whatsoever ye do in word or deed, do all in the name of the Lord Jesus, giving thanks to God and the Father by him." (Colossians 3:17). To do by the name of

implies by the authority of. An everyday example would be in the realm of a cheque. If my signature was in the proper place, that would authorize the bank to release funding when it was presented. It would be in "my name, or authority". Now, both Peter and Paul (inspired apostles that they were) expressed the need to follow the revealed authority. The early church set the initial example of following the apostles' doctrine. As long as they were content to so conduct their affairs apostasy was avoided and error could not creep in. But, whenever any religious group turns to some other authority other than Christ, or that revealed by His inspired spokesmen, there is abundant error and mis-direction.

Next week we will look at how the New Testament authorizes, or determining authority from the scriptures. See you then.

A Lesson in Woodburning!

WALTSSEN LTD.
R.R. #1
Kinmount, Ont.
488-2811

The Fisher Stove is actually four appliances in one: Heater, Cook Stove, Trash Burner, and Fire-place.

Among its finest features are its steady, even, round-the-clock burning and its no-mess, little-tending-needed operation.

The Fisher is a brand new way of making a woodstove. The engineering advances in the fire chamber and stove door plus construction excellence result in a stove so efficient that it slashes your present fuel costs up to 100%.

Trent-Severn waterway's traffic

Traffic on the Waterway to the end of June was level with last year's traffic. However, it is expected that an increase will show through the month of July.

Work is progressing on the new Big Chute Marine Railway. The control building is taking shape, along with the footings for the rails and some of the new docks, which are all part of the expansion and increased capacity of the new car and area.

With the last week of hot weather, there has been a great increase in the number of persons swimming on the Waterway, particularly near locks and dams. This has resulted in one death and numerous serious and near fatal accidents this week. Anyone swimming in these areas, should show extreme caution due to strong undertows, shallow rocks, and

other such hazards. Swimming at a supervised beach is strongly recommended and

leave the canal cuts, locks, and dams to the boaters and water control personnel.

Extremely hot weather earlier this week has increased evaporation but

Kawartha Lakes levels are still holding near navigation maxima. The other significant feature of the weather over the past two weeks is that a heavy rainfall (approx. 25 mm.) which fell in Peterborough and the Kawartha area July 12 virtually missed Haliburton. Very little precipitation has been recorded there since July 7.

With these conditions, reservoir storage declined a further three per cent to about 62 per cent by July 18 despite continued drawing of minimum flows. Normal storage remaining on this date would be about 73 per cent. Evaporation around Minden amounted to about 25mm. over the week.

A look at previous years flows for the Gull and Burnt Rivers illustrates how little reservoir water has been drawn in July. The 14-year average flow of the Burnt River is 422 cubic feet per second (cfs) whereas, this month (to the 21st) the average was 142. The previous July low of 234 cfs was observed in 1965. On the Gull River the 15-year average flow for July is 709 cfs, previous low 485 cfs in 1968, and this year 460 (to July 21).

The outflows from the Kawartha Lakes still remain at minimum, as they have been virtually all summer. At the main control structure for the Otonabee River, Young's Point, the dam setting has not been changed since May 26.

Rick Bain and Gord McWalters, both of Haliburton, just aren't saying where they are getting lake trout this year, but one thing for sure they are getting lake trout. The pair came home with three one day last week. The fish weighed 11 pounds, 10 pounds and 3 1/2 pounds. They pointed out that two bigger trout got away.

HALIBURTON LAMENT

Oh! Beautiful hamlet,
Wherein peace doth lie,
Thou valley that beckons
Beneath the blue sky.

Take me into your fold,
And make me a part,
Of the love that flows freely,
As from a full heart.

Joan Frances
Thorne.

Snowdon Council

The regular meeting of Council was held on July 13th at 7:00 p.m. with Reeve Robert Vick in the chair and Deputy Reeve Don Smedmor, Councillors Ron Burk, John Francis and Grace Simmons in attendance.

Mr. P. McGinn was present to discuss with Council maintenance work on the Upper Dutch Line Road.

Moved by J. Francis, seconded R. Burk - That the minutes of the June 8th and June 15th meetings be adopted as read.

Moved by D. Smedmor, seconded G. Simmons - That the Township enter into a cost sharing agreement with the Township of Lutterworth for maintenance costs for 1977 for the Solid Waste Disposal Site, lot 2, con. 1, Township of Lutterworth on the basis of 15 % of the actual cost for operation of the site up to a maximum of \$250.00.

Moved by J. Francis, seconded R. Burk - Whereas this Council has approved participation in the Ontario Home Renewal Program since November, 1976 and we are aware of the benefits of this program to both property owners and the municipality, we therefore recommend to The Hon. John Rhodes, Minister of Housing that (a) The Ontario Home Renewal Program be continued (b) The fund be increased.

Moved by R. Burk, seconded G. Simmons - That the minimum charge for building permits be increased from \$2.50 to \$5.00, all other rates to remain at their present levels.

Moved by J. Francis, seconded R. Burk - That the Clerk and Reeve be authorized to sign the agreement with Totten, Sims, Hubicki Associates Ltd. relative to the Bridge Survey.

Moved by J. Francis, seconded G. Simmons - That donations of \$25.00 be made to the Kinmount Agricultural Society and The Haliburton County Fair.

Moved by R. Burk, seconded J. Francis - That Road Voucher #6 in the amount of \$15,324.52 be approved for payment.

Moved by G. Simmons, seconded R. Burk - That the General Accounts in the amount of \$30,741.05 and Welfare in the amount of \$355.00 for the month of June be approved.

Moved by R. Burk, seconded J. Francis - That Land Severance Applications H-346/76, H126/77, H154/77 be approved and that applications H144/77 and H177/77 be approved subject to

right of way being decided to purchaser.

Moved by D. Smedmor, seconded G. Simmons - That this meeting be adjourned until the next regular meeting of Council on August 10th, 1977 at 7:00 p.m. unless called sooner by the Reeve - time of adjournment 11:40 p.m.

By call of the Reeve a special meeting was held on July 19th at 7:30 p.m., all members of Council were in attendance as was Mr. David Bishop to discuss with Council the proposed comprehensive Zoning By-law for the township. It was agreed that the amendments as requested by Council be forwarded to the planning consultants for their comments and a further meeting be held upon the receipt of the reply from the consultants the meeting was adjourned at 12:15 a.m.

FOREST FIRE QUIZ #3

How much do you really know about forest fires?

Statistics show that we don't know as much as we think we do, because every year people continue to be a major cause of forest fires throughout Ontario. Test your knowledge of the causes, cures

and costs of forest fires. Read the questions below and tick the answer you think is correct. When you're finished, check your answers against the right ones and see how much you really know.

1. What percentage of forest fires in Ontario every year, on the average, are man-caused, and therefore preventable?
(a) 70-80 per cent (b) 50-60 per cent (c) Less than 50 per cent
2. Which of the following groups usually causes more fires than the other two combined?
(a) Hunters (b) Fishermen (c) Picnickers
3. Throwing lighted smoking material from a car window within 1000 feet of a forested area is:
(a) dangerous (b) illegal (c) irresponsible (d) all of the above
4. What are the main causes of fires started by fishermen?
(a) Smoking materials and campfires
(b) Portable stoves and smoking materials
(c) Outboard motors and smoking materials
5. During the Fire Season you must obtain a fire permit from the Ministry of Natural Resources before setting a fire for any reason other than cooking or warmth.
(a) True (b) False
6. The safest time of the day to burn grass or debris is when humidity is highest and winds lowest, which is usually:
(a) just before lunch (b) mid afternoon (c) early morning or evening

ANSWERS

(1) a (2) b (3) c (4) a (5) a (6) c

Ratings: Six correct - you sure know your stuff
Four correct - above average
Less than four - you can pick up a copy of The Forest Fires Prevention Act from your nearest Ministry Office.

Elaboration on any of the answers given here is available from any office of the Ministry of Natural Resources.

This is the third in a series of four quizzes developed to increase public awareness of the forest fire problem in Ontario. Look for the others in recent editions of this paper, or get all four together in one folder from your nearest Ministry Office.

This year, let's not set the woods on fire.

PLAN N° 64-1596
AREA: 1596 sq. ft.
WIDTH: 51 ft. 9 in.

Design Number 64-1596

An attractive one-level home, with a full basement, for a luxurious life-style in a modern setting.

The exterior shown here combines brick veneer and fieldstone with the contemporary elegance of floor to ceiling windows to accent the vaulted ceiling. The styling of this home is such, however, that many other combinations of materials could be used.

The vaulted ceiling emphasizes the spaciousness of the large living dining area. A fireplace with raised hearth on the outside wall of the living room will prove popular on those cosy winter evenings.

In the family room there is a large picture window on one wall, and sliding glass doors opening to the rear patio for warm weather entertaining. This complete area is easily viewed from the U-shaped kitchen, a perfect arrangement for the busy housewife to keep an eye on the little ones.

The "country" kitchen is designed for ease in food preparation with plenty of cupboard space for storage. Within a few convenient steps of the kitchen are doors to the double garage; the stairs leading to the full unfinished basement; and the living dining area.

The master bedroom has a three piece ensuite. The other two bedrooms are serviced by a unique full bath arrangement. A bath and vanity is in one section, with the toilet and another vanity separated by a pocket door, to allow for privacy and simultaneous use of both sections.

There is a linen closet and an extra large storage closet in the inner hall, as well as extensive closets in all three bedrooms.

Plan for design number 64-1596 may be obtained at a cost of \$60 for the first set and \$9 for each additional set, plus \$3.50 for postage and handling. B.C. residents please include 7 per cent sales tax.

Send for the current edition of Select Home Designs, Series #33 featuring imaginative decorating and home improvement ideas plus more than 300 quality home plans of every type. Available for \$2.25 (\$1.75 plus 50 cents postage and handling). To order these items please send cheque or money order payable to the Home of the Week. Address to: Home of the Week, c/o The Haliburton County Echo, 382 West Broadway, Vancouver, B.C. V5Y 1R2.

Thank-You

On behalf of the Haliburton Boy Scouts who went to the Canadian Jamboree in Prince Edward Island, I would like to thank all the people in Haliburton who made this trip possible; The Haliburton Legion for the financial donation, The Haliburton Rotary Club for the badges to trade; Mr. Bob Barry for making and donating a row boat, and everyone who supported the raffle, bake sales and donated food and money. We had a great time and would also like to thank Mrs. Evelyn Brooks for driving the bus and Mr. Johnston Bailey for being such a terrific leader. Thanks to everyone who helped us.
Sincerely Andrew Hodgson

We would like to thank all our relatives, friends and neighbors for all your many kindnesses shown to us and for the flowers, cards, phone calls, food, money and your prayers. Also to the doctors and nurses that cared for Bruce. Many thanks to Rev. John Smith for his comforting message and to Mr. Gordon Monk of the John Welch & Son Funeral Home.
Bill, May & Delaine Ward

Births

THOMPSON - Carol and Eric are proud to announce the arrival of their son, Lucas Norman, born July 18, 1977, weighing 8 lbs., 2 oz. at Peterborough Civic.

Proud grandparents are Mr. & Mrs. Elmer Harrison of Maple Lake and Mr. & Mrs. Lloyd Thompson of Toronto and great grandmother Mrs. Marion Owen of Toronto. Special thanks to Dr. Butt and hospital staff.
